ABSTRACT

The objective of this work is to prepare and evaluate a herbal face pack for cosmetic purpose by using different natural sources like – multani mitti, turmeric, aloe vera, gram flour, lodhra, manjistha, neem, rose petal powder, sandal wood, lemon peel were purchased from local market in the form of dried powder, all powdered natural ingredients were weighed accurately then passed through sieve using #120 mesh mixed accurately and then evaluated for parameters including morphological, physicochemical, physical, phytochemical, irritancy along with stability examination. Herbal face-pack are used to stimulate blood circulation, rejuvenates the muscles and help to maintain the elasticity of the skin and remove dirt from skin pores. This review focus on research till now done on herbal face-pack and detailed study over it.
